

International Mergers & Acquisitions

This course will provide students an overview of some of the core concepts in cross-border mergers and acquisitions (negotiation the transaction, valuation, structuring issues, and financing), and focuses on the issues of accounting for purchases and sales, legal issues, operational management, governance, and competitive issues pertaining to cross-border mergers and acquisitions. The course will only briefly cover taxation of international transactions as this material is covered in depth in the course on “Global Taxation of International Transactions.”
